

Darzi Fellowship

Kent | Surrey | Sussex

<p>Title of the project</p>	<p>Improving and implementing standardised clinical pathways and guidelines across the surrey heartlands in line with saving lives care bundle</p>
<p>Sponsor Name, Title, Host Organisation</p>	<p>Dr Chimwemwe Kalumbi MBBS MRCOG MD</p> <p>Clinical Safety Lead Surrey Heartland LMS Quality and Safety Work Stream</p> <p>Surrey Heartlands Women and Children's STP (SHSTP)</p>
<p>Explain the project in one sentence</p>	<p>Across Surrey Heartlands, this is a great opportunity for a Darzi Fellow to bring innovative ideas and develop leadership skills by working collaboratively with the LMS quality and safety workstream and women and their families as service users in developing and delivering clinical pathways and guidelines across the maternity units aimed at reducing unwarranted variations in maternity care in line with saving babies lives' care bundle aimed at reducing the rate of still births.</p>
<p>Tell us about the project and sponsor in no more than 175 words</p>	<p>The LMS has an ambition of reducing the rates of stillbirth, neonatal death, maternal death and brain injury during birth in line with the national agenda. Saving babies lives care bundle is designed to tackle stillbirth and early neonatal death. It brings together four elements of care that are recognised as evidence-based and/or best practice.</p> <p>Care provision can often be disjointed with care pathways in this care bundle differing across the LMS. There is a wider need for</p>

	<p>reducing this unwarranted variation in maternity care and improve patient experience across the LMS. It is also essential that women and their families as service users are part of this new way of collaborative working. In order to implement fully the saving babies lives care bundle, it is essential that shared pathways and guidelines are developed and implemented, to be used across all three sites.</p> <p>This will require;</p> <ul style="list-style-type: none"> • Working with local clinicians, developing a detailed understanding of obstetric services within Surrey Heartlands and understanding the NHS saving babies Lives care bundle. • Working with Maternity Voice Partnership (MVP) within the LMS to involve women and their families as service users • Bringing together existing acute, community and primary care professionals redesigning whole system pathways • Ensure that the role of each professional is clear and that teams are accountable for their part in the pathway. • Develop a plan to address roll out of the new consistent pathways / guidelines and training needs
<p>What skills or attributes are you looking for in a fellow?</p>	<ul style="list-style-type: none"> • Good interpersonal skills, with confidence to work effectively with various senior stakeholders • Motivated and passionate for service and quality improvement • Able to understand, analyse and translate to a wider audience across primary, community and acute • Excellent written skills • Ability to think 'out of the box' • Interest in improving services for women, children and young people
<p>Who to contact? (Please include a brief bio, contact details and photo)</p>
