

Darzi Fellowship

Kent | Surrey | Sussex

<p>Title of the project</p>	<p>Developing a prevention and wellbeing programme in an Acute Trust setting.</p>
<p>Sponsor Name, Title, Host Organisation</p>	<p>Dr Kate Bailey Consultant in Public Health West Sussex County Council</p>
<p>Explain the project in one sentence</p>	<p>To develop and lead the implementation of a prevention and wellbeing programme for staff and service users in the local acute trust in collaboration with NHS colleagues in the Trust and the local CCG.</p>
<p>Tell us about the project and sponsor in no more than 175 words</p>	<p>Public health in West Sussex have been approached by managers in the local acute Trust who are requesting that they work more closely with them and inviting them to lead a prevention and wellbeing programme in the Trust. Local CCG colleagues are supportive of this. The first step will be to scope the programme and secure senior support for the scope. Potentially within scope is work to support the wellbeing of staff members and patients and carers (including building upon actions and plans for the CQUINs for preventing ill health and staff wellbeing), implementation of making every contact count and using a health in all policies approach. The outcome of the programme will be to support the wellbeing of staff and change the culture of the organisation to shift its activities and the environment on its sites towards a greater emphasis on prevention. Though the work has a locality/place focus if successful it would be a significant aspect of the prevention work stream within the STP.</p>
<p>What skills or attributes are you looking</p>	<p>The fellow will need to be able to scope and</p>

<p>for in a fellow?</p>	<p>shape the programme from the brief in collaboration with Trust managers and clinicians.</p> <p>They need to be excellent communicators and able to influence senior decision makers.</p> <p>The work will require the individual to familiarise themselves with the relevant evidence base including NICE guidance. They will co-ordinate the programme and project manage its development and implementation.</p> <p>High levels of resilience and flexibility are expected to be required to see the work through to implementation.</p>
<p>Who to contact? (Please include a brief bio, contact details and photo)</p>	<p>Please contact Dr Kate Bailey email: kate.bailey@westsussex.gov.uk</p>  <p>Originally a hospital medic, I have 16 years' experience at senior level in public health. Most of my role involves leading the healthy lifestyles team which commissions programmes (e.g. NHS health checks and wellbeing hubs) and also advises and leads the whole-system on prevention issues (e.g. sugar reduction or the public health contribution to alcohol licensing). I am an examiner for the Part A Faculty of Public Health membership exams and I lecture in epidemiology on the Masters in Public Health at Brighton and Sussex Medical School. I am the educational supervisor for West Sussex County Council Public Health. Relevant previous experience includes 8 years in Health Care Public Health in a liaison role between a London PCT and Hospital Trust.</p>
