

<p><b>Title of the project</b></p>	<p>Patient Leadership and Person-Centred Care</p>
<p><b>Sponsor Name, Title, Host Organisation</b></p>	<p>David Gilbert, Patient Director, Sussex MSK</p>
<p><b>Explain the project in one sentence</b></p>	<p>Exploring successes &amp; barriers in person centred care and patient leadership to coproduce a roadmap for the future.</p>
<p><b>Tell us about the project and sponsor in no more than 175 words</b></p>	<p>This project is a collaboration between David Gilbert and Chloe Stewart (Supported Self-Management Lead) at Sussex MSK, Dave Hearn at Health Education England and Jeremy Taylor at National Voices to further the patient centred agenda across the region and nationally. David has a huge legacy in driving change and developing and supporting others to do so. He is the NHS's first Patient Director as well as Director of InHealth Associates.</p> <p>We would provide the fellow with a base at Sussex MSK (an innovative new model of care) with access to regional and national leaders of change. The project will afford the Fellow to undertake much needed work across KSS to collate &amp; evaluate great examples of models that forward the person-centred agenda. From this you will be able to test out ideas locally within Sussex MSK, influence the national patient centred conversations and have the scope to develop and influence the direction of this work.</p>
<p><b>What skills are you looking for in a fellow?</b></p>	<p>We are looking for a fellow who is passionate about patient centred care and patient leadership. Practically some skills around story collecting/telling and evaluation would be useful as would a commitment to coproduction.</p>

**Who to contact and what do they look like?**

Dave Hearn, Deputy Head of Transformation, Health Education working across Kent, Surrey & Sussex
