End of Life Care Training Programme for Staff Working with People with Learning Disabilities

Nicola Le Prevost
Nurse Consultant End of Life Care / Flexi Clinical Lecturer Pilgrims Hospice

Tracey Rose
Matron Learning Disabilities Team
How did this all come about?

- Patient experience story from the Hospice
How to improve?

- Reflection
- Meet the experts
How to Improve?

- Review evidence
- Formulate a plan
- Collaborate

Delivering high quality end of life care for people who have a learning disability

Resources and tips for commissioners, service providers and health and social care staff
Project

- Collaboration between partner organisations to manage and deliver project
- Participation across sectors in Kent
- Funding from HEE KSS
- Inter-agency working practice

Aim

- Improve and steer best practice for caring and supporting people with learning disabilities and those important to them.
- Developing partnership and proactive education in end of life care
Outcome

- Improved practice of those who are caring and supporting people with learning disabilities and those who are important to them.
- Developed partnerships, education programme and resources for end of life care, for staff who are caring for people who have a learning disability.
Practice development has been used in numerous ways to enhance clinical services, such as to increase quality and safety in healthcare within a unit, to develop shared values and service priorities and to improve communication within a healthcare team (McCormack, 2010; McCormack et al., 2013).
What has been achieved?

- Practice Improvements
- Personal development
Professional practice reflecting the NMC Code of Conduct achieved
